ADVANCED PYTHON PROGRAMMING

Project on

Creating a QR code Generator in Python

Here below given the python code to generate a QR code generator:

```
import qrcode

def generate_qr(data,
filename="qrcode.png"):
    qr = qrcode.make(data)
    qr.save(filename)
    print(f"QR Code saved as {filename}")

# Example Usage
data = input("Enter text or URL: ")
generate_qr(data)
```

Output:
